

**A General Illustrated Catalogue of Exhibition  
and Event Poster Stamps to 1914**

**ADDENDUM**  
To the Consolidated Edition

Compiled by Steve Greiczek

February 2023

In the eight years since the publication of the consolidated edition of the catalogue many new poster stamps have come to light. After collecting digital copies of everything bought, found online, and contributed by others; it is about time to publish a long overdue addendum to the catalogue.

As before, the poster stamps shown promote events and dated commemorations. Anniversaries or foundation dates of businesses and associations which are increasingly found in the teens are typically not shown. Cut-outs are included where known as they are often found in collections of poster stamps and deserve mention. The images shown are again approximately 75% of actual size unless otherwise indicated.

The colours listed for each of the entries are likely not complete. Colours have become difficult to catalogue as there are so many variations of a colour. As an example, one collector's red may be another's carmine or if faded, rose. The list of colours is not intended to be complete.

This addendum also includes scarcity ratings as in the previous volumes. In short: C= common, U= uncommon, S= scarce, R= rare and RR= very rare.

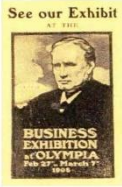

I would like to acknowledge a few individuals whose efforts contributed to this work: Tom Minor, Ray Petersen, Nick Follansbee and the late Charles Kiddle who had continually forwarded images of new discoveries.
