## Poster Stamp Artists

Almost all classic United States advertising poster stamps are based on paintings or engravings. The artists who created these paintings are not identified for all but a small percentage of cases. Here we display poster stamps advertising specific artists as well as others advertising the art services of various printing companies.

Gentlemen:-

In response to your favor of April 25th, addressed to the Triangle Laskie Sales Company, with to advise that the terminals on the **TRIP-TOP** iron are part of the element and cannot be supplied separately. We regret under the circumstances, that if these terminals are badly burned that you remove the element from the iron and mail it to us and we will mail you a new one in exchange.

To note your request for contacts and board springs for the plug. We do not know whether the iron referred to is one of the old type with metal sheathed plug or one of the newer ones with composition plugs. If it is one of the old ones we suggest the purchase of a new type plug and we will include a handle in **CHARGE** so that the old iron can be brought right up to date. The list price of the plug is 40¢ and this is subject to the regular discounts.

We take pleasure in quoting the following discounts from the list price given above and from the retail prices outlined in the enclosed price list circular:

20% & 2-1/2% from list--P.C.A. DETROIT.

On the item of hook bolts there are several different styles of bolts manufactured, and unless we receive a sample or a drawing of the type you intend to use, we could not give you a quotation.

On the items of eye bolts, it will be necessary for us to know whether these are to be black or galvanized; and also if this measurement is from under the eye or overall. We will also have to know whether these bolts will be all right hand or whether some will be right and some left, as we assume they would be used with the turnbuckles.
